2024 Discovery Days Class Session Options

Engage the Fun in Leadership!

Min – 15 Max – 30

Engage the Fun in Leadership! This SPARK session will get you up and moving! We will look at several leadership games that promote collaboration, listening, and speaking. They will also spark fun and laughter! Leadership skills can be learned best through fun engagement. We will reflect on the difference between deciding to do something and actually taking that leap and doing it. Many great ideas never get off the ground. You will leave with several activities to take back to your groups and an action plan to help you be the leader that engages people.

Exploring Alpha of Clovia: Alternative Housing at K-State

Imagine sharing a college experience with students that share your background in 4-H and forming amazing connections along the way! Join us for a house tour, an opportunity to meet current Active members, and experience the fun of our sisterhood as we create a memento for you to take home. Alpha of Clovia is a 4-H Cooperative Leadership House located near campus. Since 1931, the women of Alpha of Clovia have lived together in a cooperative manner – sharing housework and possessions to reduce the overall cost of living. Throughout the years, women at K-State from various backgrounds across the country have become members, participating in activities such as: philanthropies, house retreats, the annual national Clovia meeting, and homecoming, among other social events. Clovia gives women the opportunity to acquire and grow their leadership skills while making friendships that last a lifetime! Open for all High School women interested in attending K-State in their future and learning more about the Clovia sisterhood.

Finding Your Purpose - An Exploration of Career Opportunities in Agriculture

Helping you identify (or explore) your dream job through opportunities at K-State. The College of Agriculture has many pathways, and this is your chance to explore and see where you may fit. Are you a Future Wildcat in Agriculture?

2024 Discovery Days Class Session Options

Raising Future Assistance Dogs - Dog Training

You have heard of a service dog before. But who trains them? How are they trained? Have you ever had an interest in training dogs? What kind of dogs are allowed to be a service animal? Join us to learn more about how you could help raise a puppy and build the foundations of a future assistance dog.

Shaping the Future

Wondering what to do after high school, how to explore your options, and how to start exploring a professional career in early childhood? Come with your mobile device/phone to use as we play an interactive game, win prizes and even experience play. Kansas Child Care Training Opportunities has served as the leader in Kansas for helping early childhood professionals for nearly 40 years. KCCTO is located on the K-State campus and is part of the College of Health and Human Sciences. We offer non-credit-bearing courses for certificates. Most of our courses are online asynchronous, and we also offer live virtual courses and in-person options as well. During this SPARK session, you will learn more about early childhood, the many professional career paths that are linked to this field of study, and how you can begin exploring now.

Superstar Livestock Show - \$5 Fee

Min- 5 and Max – 20

Do you have a passion for showing Livestock? Do you wonder about how to include everyone in this passion? Learn about Teach youth the steps to put together a livestock show for underprivileged youth.

Talk the Talk and Walk the Walk

The best way to become a good public speaker is to practice, practice, practice. The best way to become an excellent public speaker is confidence, knowledge and passion. In this hands-on, active workshop you will not only get to participate confidence boosting ice breakers, but you will also learn how to effectively give a blue ribbon presentation.

In this workshop, we will discuss....

- appropriate visuals, length of presentation, context, citations, and how to connect with your audience.
- Plan to be engaged, and think outside of the box but most importantly, plan to develop a toolbox of tips and tricks that will enable you to become a more confident public speaker.

The goals of this workshop are to:

- To develop cooperation, support, and respect for one another.
 - o This is accomplished by working in groups to:
 - o Trust themselves and others to accomplish difficult, and nerve-wracking tasks.
 - o Talk, listen, encourage, help, accept, and understand, those who struggle with public speaking.
 - o Reduce stress, reduce nerves, and gain confidence!

Min – 5 Max - 20

Wetlands in Kansas? Kansas is home to the largest wetland in the United States - Cheyenne Bottoms. Explore how wetlands are productive ecosystems by comparing samples of plants, animals, soil, and water taken from Cheyenne Bottoms with samples found on campus. Participants will actually get in the water of Campus Creek to test water samples and collect aquatic invertebrates.

Kansas State University Agricultural Experiment
Station and Cooperative Extension Service.

K-State Research and Extension is an equal opportunity provider and employer.
